

# ETHIOPIA GOSPEL OUTREACH

Woodward Park Church of Christ  
P.O. Box 3836, Pinedale, CA 93650  
559 446-2550

July 25, 2024

## ADDITIONS TO THE CHURCH IN HAWASSA:

Left: Tesfaye Bogale, center, is a minister at the church in Hawassa. Feyesa Yesak, right, is a student at the Addis Ababa Bible Training Institute (AABTI) and was visiting his home area in Hawassa. He and Tesfaye worked together to teach these two young people the gospel of Christ. Tesfaye is shown baptizing them into Christ in the church baptistry. The students at the AABTI regularly return to their home areas to evangelize and strengthen the local congregations. Only God knows how much good will be accomplished when the AABTI students graduate and return to their areas to preach and plant churches wherever they go.

## WATER WELL DRILLING CREW SEES A NEED AND ANSWERS IT!

While drilling a well at one of the selected sites in the Sidama area, the crew saw a physically disabled young lady trying to use a broken wheelchair. They were touched by her need and notified the brethren in Addis Ababa. Habtu had taken some wheelchairs with him to Ethiopia, and they were in the clinic warehouse in Addis Ababa. The new wheelchair was sent to the crew, and they presented it to the young lady. She and her family were very happy. This act of kindness along with the new wells being drilled demonstrate the love our drilling crew has for the people. God be praised!!

## KEVIN SCHWIGER RETURNS TO TEACH AT THE AABTI:

Kevin Schwiger stands with Bekele, Alemayehu and Moges outside the church assembly area. He was in Addis Ababa to teach at the AABTI. Kevin is the minister at the Sunset Church of Christ in Taylor, Michigan. He has been to Ethiopia several times to teach in other School of Preaching sessions.

## **NEW WELLS DRILLED AT TWO SCHOOLS:**

The Water Bureau hydrologist selected drilling sites at different schools and the pictures show two of the completed wells. Water samples were taken and sent to the lab for testing and have since been certified to be producing pure clean water. The school pictured is a high school and the second school is a middle school. Each of them has hundreds of students that will benefit from this water as well as the surrounding community in their respective areas. Our evangelism team is reaching out to the community and letting them know this gift of love was provided caring Christians in America and offering to study with anyone desiring to know more. Thanks to everyone who has participated in this wonderful ministry.

## **GRADUATION DAY FOR THE KINDERGARTEN STUDENTS:**

Kindergarten graduation at the School for the Deaf in Addis Ababa is always a happy occasion. It happens on Parent's Day at the end of each school year. In the center picture the high achievers in the class are shown. Each student is given a graduation diploma. They will all return after the summer vacation and will be in the first-grade class next term. These children will be in our school for 12 years and will be introduced to God's word each day in chapel. This is a life-changing experience for all of them.

## **OUR DEEP APPRECIATION IS EXTENDED TO ALL OF YOU**

As you faithfully pray for and support the Lord's ministries in Ethiopia. Please know that each contribution for the various outreaches is well used in spreading the Good News of the Gospel and in lifting-up the helpless and the hopeless in many areas of Ethiopia. Five Schools for the Deaf, providing lifesaving clean water, training gospel preachers and church leaders, using World Bible School lessons to reach people in remote and distant areas with the gospel and making it possible for hundreds of preachers to travel and establish many new congregations. Thank you for the encouragement you provide! Our prayer is that God will continue His grace upon you.

Kevin and John Ed Clark
