

# ETHIOPIA GOSPEL OUTREACH

Woodward Park Church of Christ  
P.O. Box 3836, Pinedale, CA 93650  
559 446-2550

December 26, 2025

## **2025 COMPLETED AND 2026 WILL BEGAN:**

This year has been a good year for the Lord's work in Ethiopia. There have been many challenges and with God's help, your prayers and faithful support we now look forward to another new year and for the opportunities before us. We close this year expressing our sincere appreciation for all of you and the encouragement you provide for all those serving in the Lord's Kingdom in Ethiopia. Perhaps more than any new year in my lifetime God's people are facing more adversaries, obstacles and difficulties. But we have the absolute assurance that God is with us and will lead us through anything we face. As we enter 2026 we must pray earnestly and never look back. We need to continue to focus on the purpose God has assigned to us collectively and individually. Pray that God will keep our focus on Him, the salvation he has blessed us all with through Jesus and the faith we have to be with Him and all the redeemed eternally. Be thankful that God has given us the privilege to serve Him.

## **A REVIEW OF THE WORK IN ETHIOPIA 2025 AND FORWARD:**

Twenty gospel preachers completed their studies and received their BA Degree at the Addis Ababa Bible Training Institute. This school was directed by Bro. Jim Wilson. Preachers and church leaders came from the U.S. and served as instructors for the two year study program. The curriculum for the study was based on the Sunset International Bible Training Institute in Lubbock, Texas. The graduates will be involved in the expansion of the church and in building up the new churches they help establish. Many of you supported this wonderful ministry and your investment in them will produce fruit in God's Kingdom for generations to come

58 new water wells were completed and put into service in the Sidami region. These wells will supply clean water for thousands of people. Preachers are working in these areas establishing new churches as the hearts of the people were opened by the loving gift of pure clean life saving water. Many additional churches will be planted in this area in 2026. Our sincere appreciation goes out to all of you who prayed for and financially supported the water well ministry.

The Reta Clark Memorial Clinic was able to rebuild and open for business again in 2025. The government’s road and expansion plans in the city had destroyed many businesses, communities and even historical buildings. Our compound was no exception and we were forced to relocate our clinic two times. We pray that the moves are over and the desperate people who need medical attention can be served without further interruption. Many upgrades for the clinic are planned in 2026. Medical Ministries International in Fresno, California are loading a 40 foot container at this writing with equipment and supplies that will include a new digital Xray machine. The picture on the left shows a technician providing treatment for one of our deaf students. The center picture shows the doctor doing a blood draw for testing on a young lady from the Mekanissa area. On the right is the staff at the clinic. Thanks to all of you who prayed for and supported this wonderful ministry. Please continue to do so in 2026.

Thousands of bibles were given away in 2025. Bibles are imported and are subject to customs which raises the cost of each bible to about \$10. This is a highly treasured gift as most people in Ethiopia do not own a bible. They were also distributed by the well drilling crew at each new well.

## **NATIONAL PREACHER’S CONFERENCE: NOVEMBER 2025**

More than 500 preachers and church leaders came together in Addis Ababa for a conference. On the left, Bro. Habtu is shown speaking to the gathering. On the right is a picture of some of the audience. The event was hosted by the Addis Ababa Congregation and they did an unbelievable service in taking care of all the logistics, including three meals a day for the attendees.

The Deaf Ministry continues. 700+ children are served in our Children’s ministries and Christian Schools. Thanks to all of you who pray for and financially support lifting up the children and teaching them about God.

2026 is a promising year. May God help us all to be faithful in whatever we dedicate ourselves to in His Kingdom. Kevin and John Ed Clark
